FARHAN M HAMEED

Coimbatore, India | farhanmhameed@gmail.com | +919496890175 | LinkedIn | GitHub

Final-year **B.Tech student in Artificial Intelligence and Data Science** with strong foundations in **Python, Java, Data Structures, and Software Development**. Experienced in developing machine learning models, backend systems, and data-driven applications through internships and academic projects. Passionate about building scalable software solutions and intelligent systems. Seeking **entry-level roles in Software Development, Backend Engineering, or Data Science.**

EDUCATION : B.Tech – Artificial Intelligence & Data Science - ***Karunya University, Coimbatore*** Expected MAY 2026

SKILLS

AI & Generative AI: Generative AI (GenAI), Large Language Models (LLMs), Prompt Engineering, Machine Learning Integration, NLP, Neural Networks, Scikit-learn, Regression/Classification, Random Forest.
Data Science & Analytics: Data Visualization (Tableau, Power BI, Qlik Sense, Matplotlib, Seaborn), Data Literacy, Pandas, Process Optimization, Workflow Automation.
Software Engineering & Cloud: Python, Java, C, JavaScript (React.js), HTML/CSS/Bootstrap, REST API Integration, Flask, Django, SaaS Architecture, DevOps, Docker, Git, Cloud Computing (AWS, GCP, Azure), Cybersecurity Awareness.
Product & Methodologies: Agile Methodologies, Scrum, Digital Transformation, Product Roadmap Strategy, UX/UI Design Principles, SEO & Digital Marketing.
Databases: MySQL, MongoDB,NoSQL,PostgreSQL.
Leadership & Soft Skills: Cross-Functional Collaboration, Stakeholder Management, Change Management, Strategic Problem Solving, Emotional Intelligence (EQ), Adaptability/Agility, Remote/Hybrid Team Collaboration, Conflict Resolution, Continuous Learning, Mentorship & Coaching.

PROFESSIONAL EXPERIENCE

Smart Bridge (Qlik, powered by SmartInternz) **Apr 2024 – Jun 2024**
Business Analyst Intern
- Developed real-time dashboards in Qlik Sense for supply chain management.
- Analyzed structured/unstructured data to identify operational bottlenecks.
- Delivered insights that improved efficiency by 15% in decision-making metrics.

Cognifyz Technologies **Jul 2023 – Aug 2023**
Data Science Intern
- Built ML models for customer segmentation and product recommendation.
- Automated EDA pipelines in Python, reducing manual analysis by 40%.

Amalites Technologies **Jun 2024- Nov 2024**
Digital Marketing Executive
- Managed SEO campaigns and boosted organic traffic by 30% in 2 months.
- Integrated content marketing with analytics dashboards

PROJECTS

APT Detection using Graph Neural Networks | (Final Year Project)
- Designed GNN-based anomaly detection system on Linux audit logs.
- Detects Advanced Persistent Threats (APTs) with improved accuracy over baseline ML.

Healthcare Recommendation System | GitHub
- Predicts diseases from user symptoms using Random Forest (accuracy: 87%).
- Added SHAP explainability for transparent decision-making.

AI-Powered Business Analyst Tool | GitHub
- Built machine learning pipeline to analyze corporate data and extract insights.
- Automated KPI reports, enabling data-driven strategic planning.

AI Chatbot for Career Guidance.| GitHub
- NLP-based chatbot analyzing user preferences and market trends.
- Provides career advice & job recommendations with contextual intelligence.

CERTIFICATIONS

Data Scientist Professional Certificate– KIMO.AI .**Data Wrangling with Python, Linear Algebra for DS, Advanced DSA** KIMO.AI .**Data Analytics Essentials** – Cisco. **What is Data Science?** – IBM. **JavaScript Essentials** – Cisco. **Soft Skills** – TCS ION
